Conversation Starter. We encourage you to ask your financial professional:

- *Given my financial situation, should I choose an investment advisory service? Why or why not?*
- *How will you choose investments to recommend to me?*
- *What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?*

What fees will I pay?

For portfolio management services, our fees are generally assessed quarterly in arrears based on a percentage of assets held in your account. Our fee schedule is disclosed in our Form ADV Part 2A at Item 5.

If our firm charges you asset-based fees, it is important to understand that the more assets held in the account, the more you will pay in fees. We therefore have an incentive to encourage a client to increase the assets held in his/her account.

For financial planning services we typically charge a flat fee based on the complexity of the plan. We therefore have an incentive to recommend specific courses of action that require a more complex plan, which will lead to representatives and/or the firm or our affiliated broker receiving additional compensation.

Some fee arrangements create conflicts of interest described in more detail in our Form ADV, Part 2A.

In addition to the principal fees and costs listed above, there are other fees and costs related to our investment advisory services that you will pay directly or indirectly. Examples of the most common fees and costs are maintenance fees if you have less than \$250,000 under discretionary management.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

For additional information, please see Item 5 of our Form ADV, 2A Brochure (Part 2A) available at: <https://adviserinfo.sec.gov/firm/brochure/146608>

Conversation Starter. We encourage you to ask your financial professional:

- *Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

What are your legal obligations to me when providing recommendations when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we must act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the recommendations and investment advice we provide you. Here are some examples to help you understand what this means.

- As mentioned above, the more assets the client has in his/her account, the more we receive in fees. We therefore have an incentive to encourage a client to increase the assets in his/her account.
- Our firm makes money by offering products and services to you that we in turn earn money on and therefore have an incentive to sell these products to you.

Conversation Starter. We encourage you to ask your financial professional:

- *How might your conflicts of interest affect me, and how will you address them?*

For additional information, please see Items 5, 10, 11, 12 and 14 of our Form ADV, 2A Brochure (Part 2A) available at: <https://adviserinfo.sec.gov/firm/brochure/146608>
